

BERMLINER

MILITARY / COMMERCIAL

Ground covers made out of polyurethane or PVC to cover earthen or porous berms.

Protective barrier placed inside a berm to contain product. Usually used as a secondary containment for safety by retaining spilled product in the event of a leak or catastrophic failure and to prevent environmental damage. Can be used for fuel and water (pond liner).

Technology: Hot air welded / wedge welded seams

Approvals: U.S. Military

GR12935

KEY FEATURES AND BENEFITS

- 2 Drains for ease of draining, fittings chemically and mechanically bonded
- Designed to hold 1.5 X main storage capacity of tank within
- Built using Mil Spec. materials (ATPD 2262 and Mil-B-53081)
